On Friday, May 03, 2013, an 18-wheel delivery truck struck and became lodged under the canopy of the parking lot security check point at the main entrance at Shreveport Regional Airport.

In efforts to remove the damaged canopy, the main entrance at Shreveport Regional Airport will be intermittently closed from 9:30am – 11:00 am while crews work to remove the structure. An alternative entrance to the airport and airport parking lot is available via Interstate Drive, off of Hollywood Avenue, just east of the main entrance of the airport.

For passengers departing from Shreveport Regional Airport Saturday morning, you are encouraged to arrive at least two hours before your scheduled departure to avoid any delays the canopy removal process may take.
