The Shreveport Airport Authority invites you to a press conference and ribbon cutting ceremony announcing the dedication of Runway 6-24 at Shreveport Regional Airport on **Friday, April 26, 2013**. The seven-month, approximately \$5 million re-pavement project was funded by the Federal Aviation Administration and Louisiana Department of Transportation-Aviation Division.

The press conference will take place on the new runway at 10:00am. Runway 6-24 is the secondary runway at Shreveport Regional Airport. The runway is 6,202 feet long, compared to the airport's primary runway, which is 8,351 feet long. The runway can accommodate most plane types from general aviation aircraft to larger, narrow body aircraft.

Media and Invited Guests: Please arrive in the TacAir lobby, 6209 Interstate Drive, at Shreveport Regional Airport at 9:30 with a photo ID. Guests will be transported to the press conference location.

If you have any questions, please contact Mark Crawford at 318.673.5370.
